## FinTech Studios Apollo

### Product Information

Fintech Studios Apollo leverages advanced artificial intelligence and natural language processing to gain unparalleled market insights for yourself, your firm and your clients.

Apollo indexes and tags millions of documents each day from millions of public and premium sources, including news, research, blogs, regulatory, and industry documents. This vast quantity of data is analyzed for patterns and trends, centered around public companies, private companies, people, topics, sectors, and regions to build a unique set of intelligence for financial services professionals.

These powerful analytics, integrated with robust news and market data, provide a rich platform for discovery, analysis, research and trade support.

### Key Features and Functions

Apollo can be used as a complete browser based desktop solution or by selecting Apollo components to integrate within your application. Apollo is constructed using widgets that are easily deployed through your choice of platform.

- Millions of public content sources organized into user defined channels
- Worldwide information in 34 languages with instantaneous translations
- Millions of documents analyzed daily and stored forever
- 6.5 million+ entities tracked
- Thousands of industries, sectors, markets, and topics tracked and analyzed
- Powerful search, filtering and alerting functions
- Full market data and deep analytics on companies, markets and relationships
- Support for SSO integration
- Pre-integrated with Symphony and OpenFin

### Example Use Cases

- Client portfolio monitoring and alerting for Wealth Advisors
- Enhancing Retail Brokerage platforms using Apollo Widgets
- Supplementing 3<sup>rd</sup> party OMS, Portfolio and Risk applications using Apollo Widgets
- Private company and sector analysis for Venture Capital and Private Equity firms seeking investment opportunities
- Surface news, mentions and trends for entities within applications deployed using OpenFin
- Contextual market intelligence for trading and sales using Symphony for collaboration
- Global market monitoring
